

# Iteration Plan - Elaboration 5

“You Might Also Like...”

## 1. Key Milestones

Milestone	Date
Iteration start	06/06/2017
Iteration stop	13/06/2017
LCAM required	12/06/2017

## 2. High-level objectives

1. Merge the new codebase into the master branch
2. Deploy the executable architecture in a production environment
3. Design and perform UAT for the CCRD (User rates game)
4. Perform revisions on all documents required for the LCAM and complete testing for LCAM

## 3. Evaluation criteria

1. The new codebase can be found in the master branch of version control
2. The executable architecture can be found and successfully used on the production environment
3. A set of UATs is designed and the results of the UATs are documented on version control
4. The team is satisfied that the documents required for LCAM on version control are up to date and of quality and that testing has been adequately performed.

## 4. Work item assignments

Item ID	Name/ Keywords	Outcome	State	Assigned to	Estimated hrs	Hrs worked	Est. hrs remaining
1.1.	Move the new codebase to the master branch	The new codebase present in Somer's branch is inspected and merged into the master branch	<a href="#">Complete</a>	Erin, Somer	1	1	0
2.1.	Deploy the executable architecture in the production environment	The executable architecture can be found and successfully used on the production environment	<a href="#">Complete</a>	Somer	1	1	0
3.1.	Design a set of UATs to test the CCRD (Rate a game)	A set of UATs testing the operation and functionality of the CCRD are designed and committed to version control	<a href="#">Complete</a>	Somer	3	2	0
3.2.	The UATs are performed	The UATS designed in 6.1. are performed and documented against the latest version of the application and the documentation is committed to version control	<a href="#">Complete</a>	Somer	1	1	0
4.1.	Revise Project Vision	A revised and up to date version of the document can be found in version control	<a href="#">Complete</a>	Shailesh	3	3	0
4.2.	Revise Requirement Model	A revised and up to date version of the document can be found in version control	<a href="#">Complete</a>	Shailesh	3	3	0
4.3.	Revise Architecture Document	A revised and up to date version of the document can be found in version control	<a href="#">Complete</a>	Erin, Somer	5	4	0
4.4.	Revise Risk List	A revised and up to date version of the document can be found in version control	Incomplete	Hugh	3	0	3
4.5.	Revise Master Test Plan	A revised and up to date version of the document can be found	<a href="#">Complete</a>	Erin, Shailesh	5	4	0

		in version control					
4.6.	Revise Project Plan	A revised and up to date version of the document can be found in version control	Incomplete	Somer	4	0	4
4.7.	Complete Phase Status Assessment	A new phase status assessment for the elaboration phase can be found on version control	Incomplete	Somer	1	0	1
4.8.	Implement testing	Unit testing and UATs are implemented and performed and the documentation committed to version control	<a href="#">Partially Complete</a>	Erin, Somer	5	3	2

## 5. Issues

Issue	Status	Notes

## 6. Assessment

Assessment target	
Assessment date	
Participants	
Project status	

- **Assessment against objectives**
- **Work Items: Planned compared to actually completed**
- **Assessment against Evaluation Criteria Test Results**
- **Other concerns and deviations**
