Little Earth

Single-player

Indie

Casual

Simulation

Early Access

Wander on the surface of earth and observe the planets and stars on the hemisphere. Make friends with the inhabitants of earth, learn what they like to eat and where they live. Speed up time to observe how their life adapts to the changing seasons.

Fly around the solar system and observe the orbits of our planets and moons. See the earth breathing from space as the seasons change

This colorful world and its characters have been designed by Chris Haughton who's illustrated books are wildly loved by kids around the world. Together with the celestial soundscape created by Matt Wand, it is a perfect match for this atmospheric VR experience.
